° Creativity and perfectionism
° Stress management
° Teaching and mentoring

Languages:

° Spanish - Native speaker
° English - B2

Profile

I like to know what happens inside things. I enjoy learning and building things from scratch. I am mainly interested in Java but I like to learn about other technologies and continue learning.
I'm participative and helpful to my work mates with anything they need. I think teamwork and having a good work environment is one of the most important things.

Experience
